

ECOGEN₂ nitrogen generators

95% to 99.9% purity

Utilizing the proven and technologically advanced nano nitrogen generation system in a simple package provides the perfect economical "plug & play" nitrogen supply.

GEN₂ plus nitrogen generators

99% to 99.999% purity

For higher purity applications the GEN₂ plus range of nitrogen generators add an integrated regenerative dryer cartridge which eliminates the need for a separate desiccant dryer. This innovative feature significantly reduces purge loss and pressure drop while allowing for higher outlet purity levels.

HEATX nano

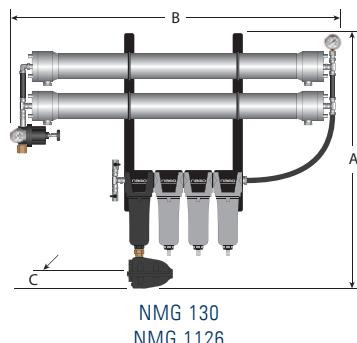

nano NMG nitrogen generators use a simple and proven membrane technology to separate nitrogen from the air simply and cost effectively with no moving parts or electricity. Why pay the gas company to deliver nitrogen when you can generate an endless supply of clean, dry nitrogen on site?
